

## **A MESSAGE FROM THE GREENE COUNTY BOARD OF ELECTRICAL EXAMINERS**

In the aftermath of Hurricane Irene the Board welcomes qualified out-of-county electricians to Greene County as we all struggle to repair our homes and businesses.

Any electrician seeking a license to operate in Greene County will be swiftly and expeditiously accommodated. Please see our web page at [www.discovergreene.com](http://www.discovergreene.com) for further information.

All persons seeking to hire an electrician are strongly cautioned to check both the electrician's credentials and their insurance coverage before hiring. Please do not let the immediate need for services control over your good judgment.

All unqualified, unlicensed electricians performing professional services in Greene County will be subject to prosecution by the Board. Additionally, any evidence of "gouging" or other illegal or unethical conduct will be immediately reported to the New York State Attorney General for further action.

We will all recover if we work together.
