2018 Coroner Report
Submitted by: Coroner John Gulino

My duties as coroner are that of responding to the place of death and observing the situation at hand. From this observation I ask certain questions of the police agency at the scene. These questions pertain to the deceased medical history, a list of doctors that have treated and attended to the deceased. From this information obtained, I then consult with our Medical Examiner to see if an autopsy is something that should be performed. Enclosed please find a list of cases (without names) by gender and the date that my services were rendered, along with the cause of death.
