The Greene County Planning Board meeting is held every third Wednesday of the month. The referral with supporting documentation must be received 12 days prior to the County Planning Board's meeting to allow adequate time for review and to be placed on the monthly agenda. By law, the Greene County Planning Board has 30 days after the receipt of a complete referral to review an application and offer recommendations. Therefore 30 day notice is recommended to ensure proper review. This 30 day period begins after staff determines the referral submittal to be complete.

In accordance with [General Municipal Law](#), all referrals must be accompanied by "full statement" of the proposed action, which means all materials required by and submitted to the referring body as an application on the proposed action, including a completed environmental assessment form and all other materials required by the referring body to make its determination on significance pursuant to the state environmental quality review act. A completed Part I of the SEQR Environmental Assessment Form, or Environmental Impact Statement, Negative Declaration, or indication of SEQR Type II Status must be included with all referrals.

Within thirty days after the referring agency takes final action, a report of the final action must be filed with the county. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report. A referral is not deemed complete until referring agency submits a Notice of Final Action.
