Overview

According to the Center for Disease Control and Prevention (CDC), a new Coronavirus (2019 Novel Coronavirus or COVID-19) was first detected in China and is now spreading across the world, including New York State. This document is intended to provide the latest information that is available from **government sources only** in order to allow you to answer questions related to the latest developments regarding COVID-19.

For more information call the New York State Coronavirus Hotline at 1-888-364-3065.

Local Impact

Everyone is encouraged to stay in regular contact with State and local officials for the most up-to-date protocols and announcements on Coronavirus.

Telehealth Services

Telehealth services may be beneficial to individuals experiencing Coronavirus symptoms and are unsure what to do. Individuals are advised to check with their health insurance providers to see if telehealth services are available. Utilizing telehealth services can reduce ER visits and allow individuals to access the advice of health care professionals from the safety of their own home.

State News Updates

April 5, 2020

- **Governor Cuomo held a press conference at 11:00 AM and provided the following information:**
 - Total cases 122,031:
 - 16,479 currently hospitalized.
 - 4,376 ICU patients.
 - 12,187 patents discharged.
 - Total deaths 4,159, up from 3,565.
 - For the non-vulnerable population, the health care system makes a real difference.
 - 74% of those hospitalized have been discharged.
 - Hospital system is over capacity:
 - To handle this, need to flex the hospitals to work together as one system.
 - Must shift staff, resources, and supplies to the locations that need it.
 - Federal Government is deploying approximately 1,000 personnel to New York including:
 - Doctors, nurses, respiratory technicians and therapists.
 - Priority is to New York City public hospitals.
 - New Yorkers should deal with the “cabin fever” that accompanies the Coronavirus.
 - Feeling of isolation, mood swings, resentment of people around you, prone to irrational outbursts.
 - Treatments are being expedited right now:
 - Vaccine.
 - Convalescent plasma.
 - Receptor antibody treatment.
 - Hydroxychloroquine.
