## ECONOMIC DEVELOPMENT

### Growing a Greene Workforce

The Growing Greene County program will be starting its Fall 2021 semester soon, every Wednesday night at the Cairo Library. This 8-credit course consists of three classes designed to provide a toolkit of business skills to individuals who would like to start their own businesses but may not know where or how to begin. Our Greene County legislators support this program and the communities involved in it and hope that it will encourage college graduates to stay and help grow Greene County. Find out more at <https://www.sunycgcc.edu/>

### Final Push to Get Better Connected

Over 1,000 residents and businesses across Greene County have responded to our Broadband Survey which will remain open through August 31st. Two-thirds of the way through this effort, we are currently at 120% of our target for responses county-wide, with 12 of our 14 towns above or on target, and well represented by their responses. We are still working to get more responses, so even if you're satisfied with your current internet service, please take the survey at <https://www.greenegovernment.com/>
