

Attention Greene County Residents!

Did you know that it is ILLEGAL in New York State to transport your waste without properly tarping it?

Not only is it required by law, but tarping your waste helps keep our roads clean and prevents trash from flying out of your vehicle while you're transporting it.

When you are transporting your waste to the Greene County Transfer Stations, please make sure to securely tarp all your trash before hitting the road.

Remember, there will be fines imposed if this practice persists, so please ensure compliance for the well-being of our community.

Let's work together to keep our roadways and community clean.

Thank you for your cooperation.
